

EVENT REPORT

On 29th January 2025, Quantum Quorum, the physics society of GTBIT conducted its first ever audition in room number 11 of lecture block at 11 am.

The auditions were open for all and mainly comprised opening in team for 6 domains:

- Social Media
- Event Management
- Outreach Team
- Content Team
- Project Team
- Graphic Design Team

The auditions were conducted in the form of 2 rounds.

ROUND 1- DOMAIN ROUND

This Round was conducted by our talented domain heads. This Round tested the candidates on the basis of skills required for the respective domain.

ROUND 2- HR/GD ROUND

This Round was conducted by the Core Team. This round tested the candidates as a person and helped us to recognize which candidate is the best fit for the society.

The audition also had a fun section wherein candidates were invited to come and play our first ever game SIMBAA made by our project

team and it also consisted of all the editions of our newsletter- The Particle Posts to read from.

The candidates were asked to give feedbacks for both the game and the newsletter.

Overall, the auditions were a great success with over 40 candidates applying for interviews and arriving in great numbers. This event would not have been possible without the support of our Teacher-In Charge DR Daljeet Kaur who supported and guided us in each step we took forward.
